The Global Wholesale Travel Transaction Program (GWTP) does not have geographic restriction. Mastercard defines the rate and announces it to all customers through regional interchange bulletins. The same criteria is used by all participating issuers and acquirers regardless of where the transaction is issued or acquired. Therefore interchange rates apply to wholesale travel transactions that are acquired anywhere in the world and that are initiated with virtual Mastercard account numbers issued anywhere in the world.

Note: This program is NOT open to all issuers by default. Mastercard will determine which Issuers are eligible and will decide which Issuers can participate in the programme.
